Education

University of Waterloo, Waterloo, Ontario

Sept 2025 - Present

BCS, Honours Computer Science with Co-op

- **Clubs:** Biomechatronics Exo Software Lead, Wat.AI Machine Learning Engineer, CS Club Web Committee

Projects

Pixel Pets Plugin [↗](#)

Obsidian

- Developed a custom Obsidian plugin using **Typescript** that spawns animated pixel pets with **1400+** downloads.
- Engineered a **class-based** animation system using custom **CSS** properties and DOM manipulation to support multiple pets and persist state across sessions.
- Created a lightweight **vector storage** and **retrieval system** with embedding indexing and similarity search over **IndexedDB** to support a **RAG** chatbot system.
- Integrated **ESBuild** to bundle external dependencies like sprite sheets for plugin architecture compatibility.
- Implemented a **deployment pipeline** with Github Actions to automate new update releases.

Lips Lips Revolution [↗](#)

Hack the North 11

- Created a lip syncing game with a userbase of over **50 people** using the **Symphonic Labs Mamo API** and **OpenAI embedding models**.
- Reduced latency from **30** seconds to **7** seconds by **reverse-engineering** the Mamo API with websockets.
- Utilized **Next.js** for rapid full stack development and QR codes and **MongoDB** for user authentication/tracking.

Drama Production Manager [↗](#)

OCDSB

- Built a **PERN** stack web application to automate attendance tracking and scheduling for drama productions, implementing **RESTful** routes following the **MVC** design pattern.
- Led the end-to-end development of the application, including requirements analysis, system architecture design, and production deployment, supporting **100+ students**.
- Utilized **Docker** and **Agile Development** for more efficient collaboration and quicker deployment.

Discord Attendance Bot [↗](#)

FRC 8729

- Utilized the **Discord API** with a **SQLite database** and **Python** to track attendance of a team with **90+ members** with a clock-in/clock-out mechanism.
- Integrated a custom calendar format attendance spreadsheet with the **Sheets API** for more accessibility.

Experience

Programming Intern [↗](#)

Remote

STEM-E

Sept 2024 - July 2025

- Developed a full-stack application using a **FERN** stack to automate onboarding for 1000+ volunteers.
- Automated timesheet creation for each volunteer via Sheets API, saving **5 hours** of manual setup per week.
- Followed an **agile methodology** with user stories and **DoD** criteria to manage a quality project workflow.

Software Team Lead [↗](#)

Ottawa, Ontario

FRC Team 8729 - Sparkling Youth Robotics Club

June 2023 - June 2025

- Instructed **19** software members in the development of a command based robot using **Java** and **OOP** principles.
- Integrated **computer vision** pipelines and **PID tuning** with hardware systems, improving response speed by **3x**.

Technical Skills

Languages: Javascript/Typescript, Python, SQL

Frameworks, APIs and Services: React.js, Next.js, Node.js, Express, Firebase, MongoDB, PostgreSQL, NumPy, OpenAI API

Tools/Skills: Github, Git, VSCode, L^AT_EX, Docker, Agile development, Linux

Awards

- René Descartes National Scholarship and President's Scholarship of Distinction (\$22k)
- Overall Track 1st Place - \$1000 (*Hack404 - July 2025*) [↗](#)
- (Solo) Best Pitch (*Terrahacks 2025 - Aug 2025*) [↗](#)
- Best Use of MongoDB Atlas (*Hack the North 11 - Sept 2024*) [↗](#)
- (Solo) Best Home Track Project (*Lazy Hacks - Dec 2024*) [↗](#)
- FRC Team 8729 - Division Champion (*FIRST Ontario Provincial Championship Technology - Apr 2024*) [↗](#)
